

Dear friends,

This is the first issue of the Nomadic Village "Daily Temporary" newspaper, ran by Penka and Peter. The first newspaper is meant to get the nomads more familiar to each other, giving a brief info about artists and guests of the Nomadic Village, but also to answer a very important question describing which the typical UK thing is for each of us. We hope our newspaper will bring you interesting, practical, not so practical, funny and representative information in the future issues. It will be our pleasure to provide you a newspaper, once it is already in production.

Greetings,

Penka and Peter
